HOW ORDERING WORKS

Every piece is made to order, and nothing is engraved until you approve a proof.

Everything in this catalog is laser engraved, marked or cut in our Roanoke shop. Pick a product, or bring us something of your own, and send whatever artwork you have.

1

Send your artwork

A logo file, a photo of a sketch or handwriting, or just the words you want. Any format works.

2

We build the file

We redraw it as a production-ready vector (SVG), the file the laser actually runs. Photos are redrawn, not traced.

3

You approve a proof

A dimensioned proof for every side or surface you order, showing exact size and placement. Revisions are free and unlimited.

4

We make it

Typical turnaround is 5–7 business days from approval. Rush (1–2 days) adds 25%. Local pickup in Roanoke is free.

Quantity pricing

Artwork setup is charged once per order, so the price per piece drops as quantity rises. Prices in this catalog are for one piece; each product's quote sheet shows the full quantity ladder.

Sets with a different name on every piece cost a little more, because every piece gets its own file and proof check.

Businesses & organizations

Case quantities (25+) are quoted per job. Your artwork stays on file for reorders.

Tax-exempt organizations: send your exemption certificate and we'll waive Virginia sales tax.

Just 1 to 9 Journals or NFC cards? Buy them on Etsy.

Colour & materials

Colours in print are indicative. Ask for an engraved sample in your colour before a large order.

Laserette black engraves to silver, other colours to black. Wood engraves a warm brown. Real wood and acacia vary in grain from piece to piece.

The fine print

We don't engrave third-party trademarks, logos or copyrighted artwork without written permission from the rights holder.

Drinkware: hand wash only, not for the microwave.

XTOOL F2 ULTRA · THE LASER WE USE

DRINKWARE
