MATERIAL NOTES

NATURAL MATERIAL

Grain, knots and colour vary from board to board. That is the wood, not a defect, and it makes each one unique.

HOW IT ENGRAVES

Wood engraves to a warm brown; darker woods such as walnut give a subtler mark. We oil every board after engraving.

ARTWORK & APPROVAL

1

Send your artwork in any form you have it: a logo file, a photo of a sketch, or just the text you want.

2

We rebuild it as a production-ready vector (SVG), the file the laser actually runs. Raster images are redrawn, not traced.

3

You get a dimensioned proof for each side you order (front and back), showing exact size and placement on the board.

4

Revisions are free and unlimited before approval. We engrave only after you approve every side in writing.

PRICING — ENGRAVED ON ONE SIDE

Includes your artwork engraved on one side, the packaging described on page 1, and a proofed SVG. The price per board falls with quantity because artwork setup is charged once per order, not once per board.
